

Sold

21 Saltwater Avenue, Noosaville

MASSIVE PRICE REDUCTION

“We built it, We’ve loved it, and now we have no choice but to leave it” The sellers of this iconic Noosa Waters home are providing a valuable and rare opportunity to secure waterfront living in sensible quantities. Rather than build an unusable mansion, the owners employed the services of a nationally recognised architect with a simple brief. The brief was to combine space and style in a private setting using the benefit of the 44 meters of water frontage, so that every room benefited from the view. Privacy was achieved in abundance and the view from room to room was water. Cooking in the stunning granite kitchen water view. Relaxing in the family room or formal lounge water view. Entertaining guests in the formal dining area water view. Such a clever design could only be achieved with the combination of two important ingredients. Firstly a very unique allotment of land with 44 meters fronting onto the Noosa Canal and secondly an extremely talented architect by the name of Marco Linardi. The sellers are set to go, and have a sensible approach to price having acknowledged that some buyers may fall in love with the design and be super excited about the location, but want to add there own touch in décor. This is a negotiation that will have plenty of up side for the buyer so please phone for a private viewing.
